## Yangi 3.1.3-rasm (namuna)

Joyi: 3.1.6-jadval tahlilidan keyin, vaznlarga sezgirlik tahlilidan oldin. Qizil – yangi matn. Hozirgi 3.1.3-rasm 3.1.4-rasmga aylanadi (nomi va matndagi havolalar).

2025-yilda aniqlangan tafovut bir yillik holat emasligini tekshirish uchun integral indeks uchala bank bo‘yicha 2021–2025-yillar uchun ham ikki variantda hisoblandi (3.1.3-rasm).

| Bank va hisobot turi | 2021 | 2022 | 2023 | 2024 | 2025 |
|---|---|---|---|---|---|
| — “O‘zsanoatqurilishbank”: milliy hisobot | 3,29 | 3,13 | 3,14 | 3,09 | 3,27 |
| ---- “O‘zsanoatqurilishbank”: MHXS | 2,92 | 2,81 | 2,91 | 2,72 | 2,81 |
| — “Mikrokreditbank”: milliy hisobot | 2,81 | 2,79 | 2,65 | 2,78 | 3,13 |
| ---- “Mikrokreditbank”: MHXS | 2,18 | 2,31 | 2,22 | 2,25 | 2,47 |
| — “Aloqabank”: milliy hisobot | 3,32 | 3,52 | 3,58 | 3,53 | 3,25 |
| ---- “Aloqabank”: MHXS | 3,01 | 2,97 | 3,17 | 3,10 | 2,78 |

Izoh: uzluksiz chiziq – milliy hisobot, uzuq chiziq – MHXS; kulrang chiziqlar – I va II sinflar (3,25 ball) hamda II va III sinflar (2,50 ball) chegaralari.

**3.1.3-rasm. Uch bankda moliyaviy barqarorlikning integral indeksi: milliy hisobot va MHXS asosida, 2021–2025-yillar, ball**

Rasmdan ko‘rinib turibdiki, MHXS ma’lumotlari asosidagi indeks uchala bankda ham tahlil davrining barcha yillarida milliy hisobot asosidagi indeksdan past bo‘lgan, farq 0,23–0,66 ballni tashkil etgan. “Mikrokreditbank” ATB milliy hisobot bo‘yicha butun davr mobaynida II sinfda, MHXS bo‘yicha esa III sinfda joylashgan. “Aloqabank” ATB milliy hisobot bo‘yicha 2021–2024-yillarda I sinfda bo‘lsa, MHXS bo‘yicha barcha yillarda II sinfda qolgan. “O‘zsanoatqurilishbank” ATB ham MHXS bo‘yicha butun davr mobaynida II sinfda bo‘lgan, milliy hisobot

bo‘yicha esa 2021 va 2025-yillarda I sinfga ko‘tarilgan. Demak, ikki variant o‘rtasidagi tafovut tasodifiy emas, balki muntazam xususiyatga ega bo‘lib, u 2.3-paragrafda aniqlangan yashirin kredit riskining integral indeksdagi aksidir.
